Innovazione, esperienza e ricerca dal 1973. Oltre 40 anni di esperienza nella trasformazione della materia plastica, soprattutto nel settore casalingo ed elettrodomestico.

Eco-Plast propone una linea a marchio Biesse, di articoli casalinghi per la tavola e la cucina, ed un varietà di ciotole dal design innovativo per appetizer e finger food a marchio Robex, ottenendo sin da dal principio un grande successo con i propri prodotti, contraddistinti dal design, dai colori di tendenza e particolarmente funzionali.

La sperimentazione di nuovi materiali e la collaborazione con designer di livello internazionale ha permesso all'azienda di ottenere successo anche fuori dai confini territoriali, accrescendo la notorietà dei marchi Biesse e Robex riconosciuti nel tempo come sinonimo di qualità ed affidabilità.

Since 1973 Innovation, experience and research. Over 40 years of experience in plastics injection, particularly in kitchenware and home appliance industry.

Eco-Plast with its Biesse brand proposes household items for table and kitchen, Robex brand for a variety of bowls with innovative design ideals for food and decoration, getting from the beginning a great success with its products, characterized by design, trending colors and particularly functional.

Experimenting with new materials and collaborating with internationally renowned designers has enabled the company to worldwide, enhancing the reputation of long-standing Biesse and Robex brands as synonymous with quality and reliability.

Seguendo la nostra "filosofia aziendale", la produzione è interamente realizzata in Italia, con l'impiego di tecnologie evolute, sia nel totale rispetto delle vigenti normative Iso 9001, in materia di garanzia della qualità, sia nell'assoluta osservanza di quelle igienico-alimentari.

Il Made in Italy sta rivivendo un momento particolarmente significativo nel suo riconoscimento come status di qualità e design e ne consegue una buona crescita nel fatturato aziendale, forte anche dell'esportazione in alcuni paesi europei, asiatici ed arabi, oltre al mercato americano.

I nostri marchi sono noti da tempo ma non hanno mai perso il loro appeal grazie al design, all'attenzione ed alla cura nei particolari che ci contraddistinguono da sempre.

Passione e tradizione si rinnovano nel tempo, assicurando, oggi come all'ora, l'affidabilità di un'azienda che garantisce la certezza di un prodotto al **100% italiano**.

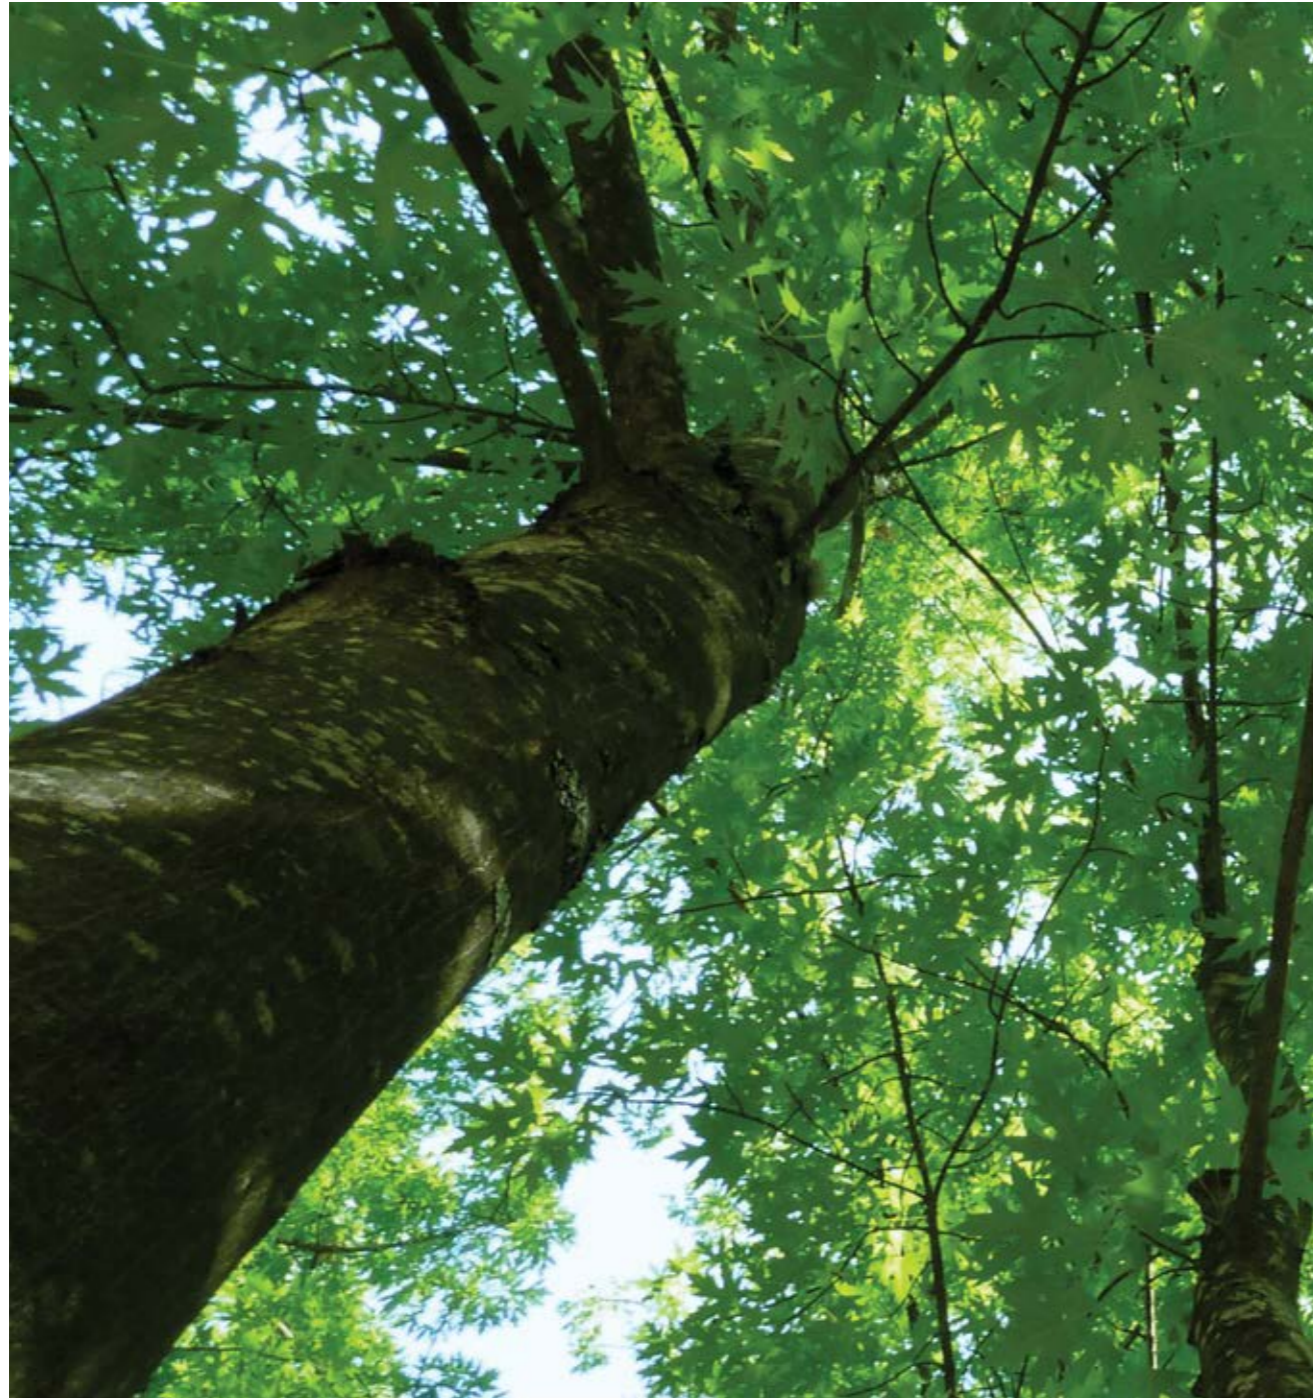

Following our "business philosophy", the production is entirely made in Italy, with applying advanced technologies in full compliance with ISO 9001 in the field of quality assurance and rules of food-hygiene.

Made in Italy is experiencing a particularly and significant moment in its recognition as a status of quality and design and the result is a good growth in the company's turnover, strong export also in some European countries, Asian and Arabia and American market too.

Our brands have long been known but have never lost their appeal due to the design, the attention and care to detail that has always distinguished us.

Passion and tradition are renewed in time, ensuring today as in the past the reliability of a company that guarantees the production is **100% Made in Italy**.

Può un'azienda che trasforma plastica essere ecosostenibile?

La risposta è sì!

Se durante la lavorazione dei materiali è particolarmente attenta al riutilizzo degli scarti. Se utilizza imballi di cartone riciclato. Se utilizza materiali che possono essere riciclati in maniera sicura per l'ambiente. Se si impegna nella suddivisione e smaltimento degli imballaggi. Se rispetta sempre le normative ambientali.

In questo processo Eco-Plast si impegna da sempre ad essere attenta nel rispetto dell'ambiente e la sua conservazione.

Can a plastic injection company be eco-sustainable?

The answer is yes!

When processing material is particularly careful to recycle the scrap. If uses recycled cardboard packaging. If uses materials can be recycled safely to the environment. If undertakes to recycle the scrap on the right way. If undertakes to separate and dispose packaging. Always comply with environmental regulations.

Eco-plast always strives to be careful to respect of the environment and its preservation.

I marchi Biesse e Robex sono stati tra i primi ad affrontare il tema degli accessori da cucina in plastica, sperimentando ed abbinando vari tipi di materiali, partendo dalla plastica, passando per il vetro, l'acciaio ed infine il legno.

Sono state queste esperienze che hanno definito la nostra identità aprendo la strada anche a collaborazioni con designer importanti che hanno offerto il loro prezioso contributo ad un'azienda che continua costantemente ad evolversi.

Soluzioni innovative e funzionali, cura dei particolari e delle forme, questi sono gli obiettivi che ininterrottamente inseguiamo per la realizzazione dei nuovi progetti.

The brands Biesse and Robex were among the first to deal with the theme of plastic kitchen accessories, experimenting and combining several types of materials, starting from plastic, passing through glass, steel and finally wood.

These experiences have been defined by ours identity, opening the way for a cooperation with important designers who have offered their precious contribution to a company that constantly keeps up to evolve.

Innovative and functional solutions, care of details and forms, these are the goals that continuously we are looking for new projects.
